

YOUR CELL PHONE
IS A
DEVICE
NOT A NUMBER

Your cell phone number is one way to reach you on that device.
Keep this number for your personal life.

Another way to reach you on that device is your Mobile Manager (MM) number.
Keep this number for your professional life.

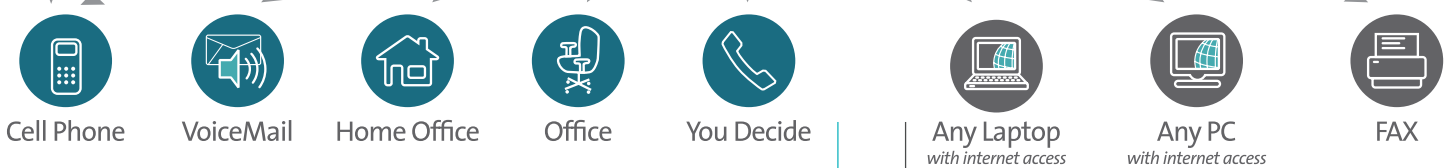

HOW IT WORKS

Personal calls on your cell phone number always go to your device.

Professional calls on your Mobile Manager number can go to your cell, or any phone of your choice.

YOUR MOBILE MANAGER NUMBER
